## Sewer Construction Project

**Cheyenne, WY**-As part of the ongoing efforts to maintain Cheyenne's sewer system, the City of Cheyenne Board of Public Utilities (BOPU) will be performing a manhole project at the intersection of Dell Range Blvd. and Ridge Rd. starting Wednesday, April 27, 2016. During the project, closure of the left-hand eastbound lane of Dell Range Boulevard between Darnell Place and Ridge Road will occur.

This project will effect north and south bound traffic on Ridge Road which will require a shift in traffic flows at the intersection with Dell Range Blvd in order to accommodate the project. For work crew's safety, there will be a 10' width restriction and reduced work zone speed limit during the repair process. The BOPU encourages residents to use alternate travel routes since travel delays will be expected.

As always, please drive cautiously near the construction area. Crews expect to complete the manhole project, weather permitting, in less than two weeks.
