Sewer Construction Project

Cheyenne, WY-As part of the ongoing efforts to maintain Cheyenne's sewer system, the City of Cheyenne Board of Public Utilities (BOPU) has been performing a manhole project at the intersection of Dell Range Blvd. and Ridge Rd. Starting Tuesday, May 24, 2016, the turn lane from eastbound Dell Range Blvd. onto northbound Ridge Rd. will be closed. What will this mean for traffic flows? Eastbound motorists can still turn left, northbound onto Ridge Rd. from the inside lane, but more than likely this will cause travel delays in the area. The BOPU encourages residents to use alternate travel routes since travel delays will be expected.

For work crew's safety, reduced work zone speed limit during the repair process. As always, please drive cautiously near the construction area. Crews expect to complete the manhole project, weather permitting, in less one week.
