ADDENDUM NUMBER ONE

RFP 1-20

To: All Prospective Bidders and all others concerned

From: City of Cheyenne, Purchasing Manager, TJ Barttelbort

Date: August 27, 2019

Subject: **Addendum Number One to Request for Proposal 1-20 for the Capitol Basin 26th Street Interceptor Storm Sewer Extension project**

The changes, clarifications, omissions, additions, and/or alterations in, on, and to the proposal information and specifications shall apply to the Request for Proposal submitted for and to the project indicated above. Except as modified by this Addendum Number One, all of the terms and provisions of the Request for Proposal for the above listed project remain in full force and effect. This Addendum Number One supersedes all previous instructions pertaining to the items listed:

1. Section A.2.a, General, of Exhibit A (Scope of Work), is updated to read as follows:

The goal of the Project is the design of storm system and water supply system improvements. The Project will provide improved drainage and water line pressure. The limits of the Project are located between O'Neil and Central Avenues, along 26th Street. Reconstruction of surfacing will continue through Capitol and end at Central. This will include curb, gutter and sidewalk. The storm line will not change and will end at Capitol.

2. Section A.2.d, Bullet #2, of Exhibit A (Scope of Work), is updated to read, as follows:

- Replacement of water main between O'Neil and Central Avenues, including necessary appurtenant structures and reconnection of services and laterals. The existing main is a 4-inch, to be replaced with a 12-inch. The length of new 12-inch main is approximately 1,730 feet. Existing 12-inch main between Carey and Central Avenues shall be removed and all services reconnected to new 12-inch main.

3. Section A.8.i of Exhibit A (Scope of Work), is missing Item #6. This is a typographical error only.

4. The following documents are provided via this Addendum One:
 - a. Geotechnical Engineering Report - Capitol Basin 26th Street Interceptor Storm Sewer.
 - b. 26th Street SWMM Model (12-12-16 to Carey).
 - c. RFP 1-20 CAPITOL BASIN 26TH ST INTERCEPTOR STORM SEWER 95 PERCENT Review Plans.
 - i. The above listed documents are provided for reference, for all interested proposers.
5. Section A.6.f Drainage Impact Study, of Exhibit A (Scope of Work), is clarified as follows:
 - a. The awarded proposer will be responsible for providing a completed Drainage Impact Study. The proposer may use the existing documents and models as a starting point, however it will still be required to update the data and reports as a result of this project.

ADDENDUM ONE ACKNOWLEDGED:
