

Residential Development Fee Worksheet

Certain development fees for new residential construction and changes to new residential uses require payment of several development fees. The fees are established by ordinance and agreements and offset costs associated with public safety, park enhancement, parkland acquisition, and in certain cases, transportation. Fees are due at the time of building permit application.

Please mark if your project is located within either of the following subdivisions:

- Saddle Ridge Subdivision (if marked, Section 3 is not required)
- Sweetgrass Subdivision (if marked, please complete Section 3 in addition to Sections 1 and 2)
